

In My Opinion

SPRING ISSUE

HABITOWN ECHO

ISSUE EIGHT-FIVE

The building of our new community centre is on hold until further notice

COMMUNITY CENTRE ON HOLD!

The much awaited Community Centre is expected to be completed in one year's time. However, construction, which began one week ago, has now stopped. Why?

City Council, when reached by phone last week, claims that this community centre is causing much controversy here in Habatown. The mayor has decided to stop further construction until all arguments for and against have been heard at the public forum, to be held in three weeks time. **H. M., Editor**

LETTERS TO THE EDITOR

Unhappy In Habatown

I am shocked that construction has stopped. I need this job. I work hard. I have a family to feed. This job means everything to me.

R.J., Hard worker

This community centre is very important to me. I need to practise my swimming (I won the city championship last year) and my school pool has closed!

N. P., Student in Need

Mayor Hears Us

I was surprised when construction started. I don't remember there being a public forum about this. I think the building of this community centre should be a community decision, especially

around the location. I am glad the mayor has heard us.

LB., President of Rights of the Animals

Public Forum Meeting:
Third Thursday of this month, 8pm, at the local school. Be there and be heard!

Undecided

Change is once again upon us. And I have seen more changes than most of you - some good, some not so good. It is time to take a step back and think before we act.

F.L.
