

Grade 1: Dance, Drama and Critical Literacy
Letter from the Mayor

Dear Grade One Students from _____ School,

I am writing to thank you for your letter regarding the state of the community park in your neighborhood. You made some very compelling arguments about how the problems there are affecting the lives of the citizens who live nearby. While I agree that several of the problems that you mentioned require attention, I must tell you that I have received similar letters from people across the city and I simply cannot afford to fix them all.

That said, I have asked my secretary to reserve a half hour time slot later this week to meet with you in person to discuss the matter further. In order to make the best use of our time together, I suggest that you prepare a list of the major problems in the park along with a proposal of how they can be fixed and who will fix them.

Sincerely,

Mayor Lajoie
