#### I am the Tree

I spend the winter making sweet sap  
providing food for humans.

I soak up the sun to help make my limbs  
strong

I wish they waited until I died before  
they used me.

I help humans capture their thoughts  
and ideas through the paper I create.

The gifts within my family's body offer  
cures to human diseases.

My shade comforts them.

I block the wind and water from eroding  
or destroying their homes.
